Dear Fellow Umpire:

Thank you for your interest in the Academy training program. Our training is reaching students worldwide as we take amateur umpiring to new levels. Everyone, regardless of age, gender, or personal goals, receives the same personal attention and quality instruction. No one leaves the JEEC as a loser.

As a professional educator and veteran Major League umpire, I feel that I have an inherent obligation to make you aware of the professional system and how you, as a student, might fit into it. I personally take responsibility for your training. Your training starts in the classroom where you will experience daily lectures on the rules, responsibilities, and mechanics you will need to implement on the field. All the knowledge you will be evaluated on will be presented during your classroom and field training. Each subject is introduced in lecture, demonstrated on-the-field, drilled, and then integrated into game situations.

In addition to my personal commitment, you will be working daily with the former senior field supervisor of PBUC, Dick Nelson. Dick has taught or supervised over 70% of the umpires working in the Major Leagues today.

I think that you are going to discover that our training program exceeds all expectations. I encourage you to compare us to any other program in the world today. My goal is to help you maximize your potential...to equip you with the skills and knowledge you need to succeed at the highest amateur level possible. Our graduates are proving that the comprehensive, innovative training that the Academy offers really does make a difference. I would like the opportunity to help make a difference in YOUR umpiring future. Please get in touch if you have questions.

Sincerely,

Jim Evans, Chief Instructor JEEC 2014
